Autumn Stock-Up Sale for VinTabsPlus®

Dear Friend,

The summer is behind us, and autumn is looming ahead. If you're like most people, you had a busy summer with time on the golf course, fishing the nearest watering hole, visits from relatives, maybe a long awaited trip to an exotic location...?

The busy activities of the summer make it easy to forget to order all the things you need on the shelf for your health, your fitness, and your wellbeing... like your VinTabsPlus® tablets.

As seasons change, so do chores. Weeding the flowerbed gives way to raking leaves, cleaning out the garage, planting bulbs... and your afternoon walk becomes much more enjoyable, too. These activities call for you to stay at your healthy best and not miss the health advantages your daily dose of vinegar provides.

Advantages like:

- **blood sugar control**
- **blood pressure improvement**
- **infection control**
- **weight loss**
- **improvement in cognitive function**
- **lowered cholesterol**

For this reason, Nick – our good-natured shipping guy who loves our

customers – suggested that we *offer a stock-up sale for fall*, to help all our customers build their supply of VinTabsPlus® so they can save some money and have plenty on the shelf to get through the fall and even the winter. **I loved the idea** and said, “There ya go, Nick!! Why not?? Let’s do it!!”

So we sharpened our pencils and came up with some great discounts just for you. The **more you buy**, the more you’ll *save*. **And I’m about to tell you all about it our *SAVE MORE THAN YOU SPEND Autumn Stock-Up SALE ...in just a sec.***

But first I want to share the stories of some happy VinTabsPlus® customers:

First this one from our friend, **Mamie Hernandez**, about her **heel infection...**

“I have been taking 2 tablets since Monday. I cannot believe how fast they work. My foot heel was hurting so much I could not walk, it’s gone. There is a trace but nothing like it was hurting. I sleep like a rock. Thanks again! I’ve been sharing with family members. Can’t wait to hear results.”

Mamie Hernandez,
San Antonio, TX

Look what happened with **Kathleen Blackford’s weight...**

“I also bought the VinTabsPlus®. I love this product. I lost some weight from this product. I would buy this product again. This is a must buy.”

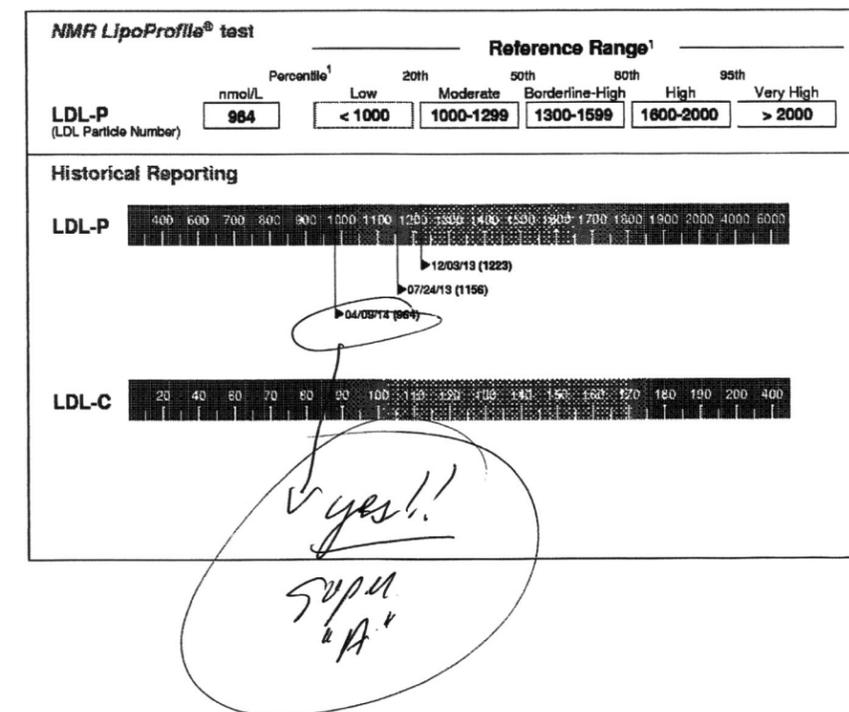

Kathleen
Blackford,
Winter Haven, FL

And **Barbara Hoover’s cholesterol** took a real dip....!

“I am enclosing a copy of my cholesterol, HDL, and LDL cholesterol test done on 4/10/14. As you can tell my doctor was so proud of me. He asked what I was doing to bring the numbers down. I told him I read an article about vinegar tabs. I had at that time been taken 3 tabs a day for 3 weeks. The next time I come in he wants me to bring the info, so he can share with other patients. So you can see by my numbers why he was so proud of me. I am so happy about this. “It works.”

Barbara Hoover,
Nashville, NC

Barbara also sent us a copy of her lab results, which showed the dramatic change in her cholesterol. The HDL or “good cholesterol” came up like it needed to (not shown in this image), and the “bad cholesterol” or LDL (**shown below**)

came down from **1223 to under 1000**, which is normal.

This is real, official lab work, my friend! It's hard to protest lab work or a customer's scale.

Scientists are researching the traditional benefits of vinegar and are finding these benefits aren't just "old wives tales" but daily vinegar really does keep people healthy and researchers are finding out why.

Here are some health benefits scientists have discovered through studies with vinegar:

- **Helps lower blood sugar** – studies show vinegar improves insulin sensitivity and lowers glucose after a high carbohydrate meal
- **Helps with weight loss** – daily vinegar helps you feel full so you'll eat less and lose weight without feeling deprived, plus it also reduces fat deposits in the liver
- **Helps reduce cholesterol** – taking vinegar prevents oxidation in your LDL, which lowers the "bad cholesterol", and can also increase your HDL or the "good cholesterol"
- **Help lower blood pressure** – taking vinegar helps lower blood pressure by reducing plasma renin and aldosterone action which cause blood vessel constriction... and prevents blood pressure from rising by blocking the angiotensin converting enzyme (ACE)
- **Kills bacteria to help wounds heal** – has demonstrated outstanding effectiveness in destroying most microbes such as *E. coli*, *salmonella typhimurium*, *streptococcus mutans*, *staphylococcus aureus*, *candida albicans*

- **Keeps the brain active and alert** – promotes brain tissue growth, improves your cognitive function like thinking clearly, making decisions, and more

...and the list goes on.

Did you realize there were so many reasons backed by science to continue as a daily vinegar user?

...and as a VinTabsPlus® subscriber you and I both know vinegar is even easier to consume in tablet form.

Some people say they've tried to swallow the vinegar in their salad bowl, but it's too uncomfortable, so they gave it up.

But that's the beauty of VinTabsPlus®. Two simple tablets a day with a glass of water... just like taking a daily vitamin. All the amazing health benefits that millions of others have enjoyed from drinking vinegar for thousands of years... but you don't have to swallow that burning acidic liquid.
